New York, NY 10022

Dear Madam/Sir:

Please forward information regarding funding opportunities (grants, fellowships, awards/prizes, etc.) offered by your organization.

We are interested in receiving the followin information:

-- program guidelines and application materials, including deadline date(s),
-- a current annual report, if available for distribution,
-- typical grant dollar range,
-- indirect cost (overhead) and patent policies, and
-- the month in which your materials are normally published each year.

If you maintain a mailing list, please include us so that we may receive updated information as it becomes available.

The information received will be used in connection with the Research Foundation's Sponsored Programs Information Network (SPIN). SPIN is a computerized data base of funding opportunities used by colleges and universities nationwide. The service is designed to enable faculty and administrators to determine what sponsored programs are available, how much funding can be obtained, and what requirements must be met to apply.

Thank you for your assistance. For your convenience, a self-addressed mailing label is attached. Should you have any questions, please contact us at (518) 434-7150.

Sincerely,

Jill A. C. Rydberg

Jill A. C. Rydberg
Associate Director for
Sponsored Program Services
